TO ARCHITECTS, BUILDERS, CONTRACTORS, &c.

HARTLEY'S PATENT ROUGH PLATE GLASS,

1-8th thick, or 2 lbs. to the foot; 1-16th, or 3 lbs.; and 1-4th, or 4 lbs. to the foot, for

RIDGE AND FURROW ROOFS, GREENHOUSES, RAILWAY STATIONS, ENGINE SHEDS, MILLS, MARKET HALLS, AND PUBLIC BUILDINGS GENERALLY.

It being universally admitted that Glass in Roofs of a permanent character should not be less than one-eighth of an inch thick, weighing two pounds to the foot, Messrs. JAMES HARTLEY and CO. have directed their attention to the manufacture of a description of

ROUGH PLATE GLASS THAT COMBINES SIZE AND STRENGTH WITH ECONOMY OF COST.

The PATENT ROUGH PLATE is manufactured in sizes expressly for Ridge and Furrow Roofs, giving a sheet of from 6 to 15 feet, at a price not exceeding weight for weight that of common Crown Glass. Not being transparent, blinds are unnecessary, and when used in Greenhouses no scorching occurs; its NON-TRANSPARENCY and strength render it eminently suitable for the Glazing of Engine-sheds and Roofs of all kinds; also Factories, Warehouses, &c., for which purposes it is supplied in sizes to admit of all sizes from 9 by 6 inches and upwards.

For further information apply to Messrs. JAMES HARTLEY and CO., Wear Glass Works, Sunderland.

N.B.—The Patent Rough Plate is supplied at a much lower cost than the common Rough Plate.—May 1, 1861.

GLASS FOR CHURCHES, CHAPELS, SCHOOLS, &c.

HARTLEY'S PATENT QUARRY GLASS,

Of three thicknesses, in long lengths: an economical substitute for lead lights. The attention of Architects, Builders, and others is particularly requested to this beautiful article; samples of which may be seen at

JOSEPH CHATER AND SON'S, ST. DUNSTAN'S-HILL, TOWER-STREET, LONDON.

SHEET GLASS, 16 ounces to the foot, packed in boxes containing 100 feet, sizes from 11 by 9 to 30 by 24, 26 by 22, and 30 by 24.

CROWN SQUARES, same sizes, 1½d. per 100 feet. Boxes 2s. extra, less full prices allowed when returned.

FOREIGN SHEET GLASS, of very superior quality, packed in cases of 200 feet, and in sizes varying from 36 by 26 to 44 by 30 inches, at 22s., 23s. to 25s. per case.

HARTLEY'S PATENT ROUGH PLATE GLASS, for Conservatories, Public Buildings, Manufactories, Skylights, &c., ¼ inch thick. Packed in boxes of 50 feet each.

6 by 4 and 6½ by 4 ..... 15s. 6d. | 7 by 5 and 7½ by 5 ..... 18s. 6d.
5 by 4 and 6½ by 5 ..... 15s. 6d. | 6 by 5 and 7½ by 6 ..... 18s. 6d.

HARTLEY'S PATENT QUARRY GLASS (Glass Tiles), ⅛ of an inch thick, 2s. 4½d. per case of 50, case included.

JAMES PHILLIPS and CO. 116, Bishopsgate-street without, Lor don.

BELGIAN SHEET-GLASS.—ALFRED GOSLETT begs to inform the Trade that he is prepared to supply the above Glass, of good quality, and 16 ounces to the foot, upon the following cash terms:—In single cases, containing 200 feet more or less, 40s.; parcels of five cases, at 40s.; parcels of ten cases, at 39s. per case; or cut to any given size, at 3d. per foot.

SOHO CROWN, SHEET, ORNAMENTAL, and PLATE-GLASS WAREHOUSE, 28, SOHO-SQUARE.

CHEAP ORNAMENTAL GLASS.—I beg to inform my friends and the public that I have now completed a new ENGINE, and, owing to the facility with which I can execute orders, I am enabled to reduce my former prices considerably. The prices are now from ONE SHILLING PER FOOT SUP. and Borders from SIXPENCE PER FOOT RUN. A large quantity of the cheapest patterns always in stock. Re-leading and painted work on the most moderate terms.—CHARLES LONG, No. 1, Wing-street, Baker-street, Portman-square.—Cash only.

E and W. H. JACKSON beg to call the attention of Builders and the Trade to the LOW PRICES of their PATENT PLATE, BRITISH PLATE, silvered and for glazing, of unrivalled quality and finish; ROUGH PLATE, CROWN, SHEET, COLOURED, and ORNAMENTAL GLASS, in every variety of the best manufacture, at the lowest terms. Designs and estimates furnished for ornamental windows, either for houses or church decorations. All applications for estimates and lists of prices to be made at their warehouse, 313, OXFORD-STREET.

THOMAS MILLINGTON begs to inform BUILDERS and the Trade that he can supply them with FOREIGN and ENGLISH WINDOW GLASS, Plain and Coloured, of every description. ROUGH PLATE GLASS from ¼ inch to 1 inch thick. Glass Tracings, Glass Paintings, Lead, Paints, &c. Every Colours, Oils, Varnishes, Brushes, &c.; Milled and Sheet Leads. Lead Pipe from ¼ inch to 4 inches bore; Solder, Water-closets, Basins, Plumbers' and Brass Work of every description, and upon the very best terms. Glass Ornament Shades, Mill panes, Propagating and Sun Glasses.—Address, 87, Bishopsgate-street, Without.

See Advertisement, Saturday, June 28, 1851.

TO BUILDERS, PLUMBERS, &c.

JAMES MILES'S cheap ENGLISH and FOREIGN WINDOW-GLASS WAREHOUSE, 18, Church-street, Shoreditch, near the Eastern Counties Railway Terminus. Cases of foreign sheet, various sizes, 41s. 200 feet; crates of sheet, 14 to 16 oz., 25s. per 100 feet; good crown C C, 18s. 20s. per crate; patent plate; Hartley's ROUGH PLATE; enamel, ground, and ornamental glass; crown squares of every size in stock; sheet lead; pipe; patent gas-pipe; solder and plumbers' brass work of all kinds; white lead, oils, and colours, at low prices; LARGE STOCK of PAPER-HANGINGS; old lead bought in any quantity, or taken in exchange. Sashes glazed and primed in oil at very low prices, in any quantity.

LIGHTERAGE.—To Saw-Mill Proprietors, Timber, Slate, and Stone Merchants, or others, requiring Lighterage.—The Advertiser, having a large number of Barges, is willing to undertake LIGHTERAGE at prices that defy competition.—CHARLES STRUTTON, 34, Commercial-road, Lambeth.

PATENT VULCANISED INDIA-RUBBER TUBING, for Gas Fittings, Chemical Purposes, Fire Engines, Manure Pumps, &c.—JAMES LYNE HANCOCK, Sole Manufacturer (and Licensee), Gerrard-street, Soho, London, begs to invite the attention of Architects, Builders, Engineers, and the trade generally, to the Vulcanised India Rubber Tubing, which is now manufactured from 1-8 inch bore and upwards, in lengths from 30 to 180 feet, and of various strengths, suitable to the purposes for which it is applied. VULCANISED SHEET for FIRE ENGINES, LIQUID MANURE, and for conveying HOT WATER to BATHS in DWELLING-HOUSES and BREWERIES, manufactured to resist great pressure of any length and size to order.

*** Testimonials may be had on application at the Manufactory.

N.B. VULCANIZED WASHERS and SHEET RUBBER for Steam and Hot Water Pipes, and Packings for Pistons and Gland-Boxes of Steam Engines, cut any size to order.

LEGAL AND OTHER IMPORTANT DOCUMENTS CAN BE EFFECTUALLY PROTECTED FROM DAMP AND VERMIN.

DAMP and GASEOUS EXHALATIONS. SANITARY MEASURES.

MEMBERS of BOARDS of HEALTH are especially DIRECTED to the most EFFECTIVE MEANS which they can ADOPT to PREVENT the importunate and often FATAL EFFECTS upon the HEALTH of the COMMUNITY, arising from exhalations that are produced from moisture, decayed animal matter as in graveyards, stagnant water, and collections of fetid refuse, tending to produce a miasmatic state of atmosphere. In situations so affected, the impervious quality of the ASPHALTE or SEYSSEL renders it the most perfect PAVEMENT or COVERING that can be relied upon for hermetically closing, and thereby preventing the rising of moisture and the escape of noxious vapours. The present extensive application of this material for covering roofs, terraces, and arches for preventing the percolation of wet, is strong evidence of its effectiveness for the above purposes.

L. FARRELL, Secretary.

SEYSSEL ASPHALTE COMPANY, Stangate, near Westminster-bridge, London.

*** The exclusive supply of ASPHALTE from the MINES of PYRIMONT SEYSSEL is conceded to this COMPANY.

ATKINSON'S CEMENT, so long known and esteemed in London, for plastering purposes, is a quick-setting cement that requires no colouring.—Sold exclusively by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster, and Basinghall-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal uses.—These well known hard stuccoes dry quickly, and can be painted upon within a few days. Made and sold by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate, and is not washed by frost. As a mortar for brick work, it may be mixed with three to four parts of sand; and, for concrete, it will carry ten to twelve times its volume of sand and gravel.—Manufactured by JOHN BAZLEY WHITE and SONS, 17, Millbank-street, Westminster, and Basinghall-street, Liverpool.

PORTLAND CEMENT, in Casks of Four Imperial Bushels. QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality in consequence never before attained in Portland Cement, but it possesses extraordinary competitive qualities, resists the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack, combined with which its eminent hydraulic properties change it at once as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland cement is one to be relied upon to the thousands and fourth by those who have hitherto had the monopoly. Manufactured by R. GREAVES, Esq., at his Works, near the River Aven, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Mill-wall, Poplar; 48, Andrew's Wharf, East-street, Blackfriars; or Middle Scotland-yard, Westminster. Manufacturer of Roman, Lias, and Mastic Cements, French and English Plaster, &c.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs. ROBINS and CO. solicit the attention of their friends and the public to their superior Cement, confident that the great improvement in the manufacture thereof during the present year will enable them to continue the favours of past seasons with which they have so long been favoured.—Orders received at the Works, and at Great Scotland-yard, Whitehall.

March, 1858.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILTON, at his Roman and Portland Cement and Plaster of Paris Works, Faversham, Kent, at which place, as also at his Wharfs in London, 6, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

PATENT PORTLAND and ROMAN CEMENTS.—WINKFIELD, BELL, and CO. of East Greenwich, Kent, having now completed some heavy contracts, are prepared to execute orders to any extent for either of the above Cements, which they are quite prepared to prove exceed any others in their cementitious qualities at present manufactured. Many highly respectable references can be given where their Cements have been successfully used. Orders addressed to their Works will be punctually attended to, and terms cash. Where quantities are used a correspondingly price will be made.—Agent at Southampton, Mr. GEORGE SHARPE, Union Wharf.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Roman Cement, but is much better adapted to engineering works, from the rapidity with which it sets and hardens under water. It has been long used at the great Breakwater at Cherbourg; in a similar work at Aldernay; and at Dover, in new pier, to unite the masonry. The foundation of the centre pier of the Tubular Bridge at Menai Straits is laid in Medina Cement. A new groyne at Sandown Bay, Isle of Wight, has been constructed of no other material but this cement and sea shingle. The work extends 200 feet into the sea, and is exposed to the most violent gales of the Channel, in a position where every former construction had been repeatedly washed away. The inconvenience of the varied qualities of Roman Cement are superseded by the use of this improved manufacture.

CHAS. FRANCIS and SONS, Nine Elms, London; or West Medina Mill, Newport, Isle of Wight.

Agent for Southampton, H. L. FLUDER, American Wharf.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner.

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing every advantage over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF—is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. One cwt. will cover 200 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of the kind: it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleansed with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prices, &c., and every information may be obtained, on application to the Sole Agents, PHILIP HAMS and Co. at the Warehouse, 22, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS, AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, Nine Elms, London.

GEORGE and THOMAS EARLE, CEMENT MANUFACTURERS, HULL.

Light and Dark equal to any made.

Also, Manufacturers of PLASTER, MASTIC, &c.

Importers of MARBLE and PORCELAIN.

Dealers in Stone, Slates, Hair, Whiting, &c.

ROMAN and OTHER CEMENTS, Manufactured by J. M. BLANDFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Terras and Portland Cements, English and French Plaster, Terra Cotta Chimney Pots, Trusses, &c.

Manufactory, Mill Wall, Poplar; Depôts, Commercial-road, Lambeth, and Paddington-basin.

THOMAS FREEN and CO., REGENT'S CANAL, KINGSLAND-ROAD, beg to inform their friends and the public that, since the late fire on their premises, they have entirely REBUILT FREEN MANUFACTORY, and are now prepared to supply ROMAN CEMENT and PLASTER OF PARIS in any quantities, direct from their mills. T. F. and Co. further beg to state, that having made great improvements in their machinery, those articles, they trust, will be found fully to support the high character they have always hitherto borne in the trade.

THOMAS FREEN and CO. LIME BURNERS, Wouldham-on-the-Railway. Grey and Chalk Lime supplied by the freight, direct from the kilns, or fresh from their wharf, via Canal-road, Kingsland-road; Queen's Wharf Great Cumberland-street, Hampstead; or King's Wharf, New Wharf-road, Battle-bridge. N.B. Lathe, Tiles, Chimney-pots, Plaster, Hair, Welch Goods, &c. &c. &c.

BARROW LIME.—This celebrated hydraulic Lime, from the Blue Lias Stone, can now be forwarded by railway fresh from the kilns to any part of the Kingdom. It is becoming much generally used for Concrete, and can be supplied ready ground for that purpose. Price, &c. may be obtained on application to JOHN ELLIS and SONS, Leicester.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The shell lime for mortar is burnt on an improved principle, leaving scarcely any core. The said method constantly approved by Engineers, Architects, and Contractors, of the above, to its best recommendation.

Office, Canning, and Co.'s Blue Vitrified Bricks, Pipes, Junctions, Bends, and Fire Goods.

ROMAN, PORTLAND, PARIAN, ANSTON, and LIAS CEMENTS of the best quality.

BROWNS, PAVIOURS', STOCKS, and other Bricks.

CHARLES RICHARDSON, 6, South Wharf, Paddington.

GREY-STONE LIME.—HALL, BROTHERS, Merstham Lime Works, near Reigate, beg to refer to Builders and others a list of their prices for Cash on delivery:

Grey-Stone Lime ..... 6s. 6d. per Yard, or 36 Bushels.
Ditto, for Manure ..... 4s. 6d. ditto ditto
Ditto, Ashes ..... 3s. 6d. ditto ditto
Black ditto ..... 2s. 6d. ditto ditto

In not less than 30s. Yard quantities, and put on the Railway for all goods stations on the London and Brighton and South-Eastern Railways, or lines connected with them. A fresh supply, hot from the kilns daily, at the Bricklayers' Arms and Croydon Stations, and delivered to all parts.

Prices for Cash on delivery:—2s. per yard at the stations or works; 2s. per yard delivered within five miles; in not less than 3 yard quantities. Booking, 2s. per yard; in per yard off, if paid monthly. Collecting charged for. The quality is warranted to be the best.—Address, Merstham, near Reigate, Croydon; or Yard in place, Old Kent-road.

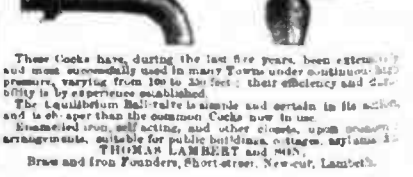
HEAL and SON'S ILLUSTRATED CATALOGUE of BEDSTEADS, sent free by post, contains designs and prices of upwards of One Hundred different Bedsteads, in Iron, Brass, Japanned Wood, polished Birch, Mahogany, Rosewood, and Walnut-tree Woods; also their general List of Bedding, and their new warerooms enable them to keep one of each design fixed for inspection. They have also, in addition to their usual stock, a great variety of the best designs of PARISIAN BEDSTEADS, both in wood and iron, which they have just imported.—HEAL and SON, Bedstead and Bedding Manufacturers, 196 opposite the Chapel, Tottenham-court-road.

IMPORTANT to FAMILIES FURNISHING, who study Elegance with Economy.—JAMES COOK'S three guinea French polished Mahogany Arabian Bedstead, Bedding, Cabinet, Carpet, Looking-glass and Upholstery Warehouse. Estimates given, and a list of prices sent post-free.

BROMPTON HOUSE, 29 and 31, QUEEN'S-BUILDINGS, KNIGHTSBRIDGE.

PRIZE MEDAL, CLASS 28.

HIGH-PRESSURE VALVE COCKS.—LAMBERT'S PATENT.



These Cocks have, during the last five years, been extensively and most successfully used in many Towns under continuous high pressure, varying from 100 to 350 feet; their efficiency and durability is by experience established.

The Equilibrium Ball-valve is simple and certain in its action, and is cheaper than the common Cocks now in use.

Enamelled iron, self acting, and other closets, upon improved arrangements, suitable for public buildings, cottages, asylums, &c.

THOMAS LAMBERT and SON, Brass and Iron Founders, Short-street, New-cut, Lambeth.
